

WELDING TRAINING SURVEY

(Training Needs in the Welding Field)

Company Name: _____

Contact Person: _____ Phone: _____

- 1) How many of your current employees need upgraded welding training?
- 2) What is your need for new employee training?
- 3) How many new employees could you employ or hire (open positions) if people had the welding skills needed?
- 4) Are there industry standards or certifications that are needed? (These are one year or less trainings – not apprenticeship. Certifications can be included.) Please list certifications and skill level.
- 5) What is your starting wage for a basic welder?
- 6) What is your starting wage for a certified welder?
- 7) Would there be an increase in salaries available for current employees who completed the welding training?
- 8) Would you allow employees time-off to attend welding training if it conflicts with their regular work hours?
- 9) Would you require employees to attend welding training on their own personal time?
- 10) Would your company be willing to contribute a portion towards the cost of the welding training?
- 11) Would you be interested in serving on a program advisory committee to develop a non-credit, short-term intensive welding training program?
